Projects

Portfolio Application | Link to [GitHub](#) & [Heroku](#)

(October 2022)

- Developed the website showing my personal information with **Express.js**, **Node.js**, **JavaScript**, **HTML**, and **CSS** in Visual Studio Code.
- Collected data by developing the portfolio by using **AWS MongoDB** and pushed to code with git to GitHub.
- Deployed the code from **GitHub** to **Heroku** and commented on the code to make sure every code is clean and understandable before publishing to the cloud.

Bank Account – Cheque & Saving Application | Link to [GitHub](#)

(October 2022)

- Created a Windows Forms Application using **C#** to allow users to create a bank account with a cheque or saving account; Users can select the account type and input money.

Photo Slideshow – Food Selection | Link to [GitHub](#)

(October 2022)

- Designed and developed a photo slideshow website using **JavaScript** and **jQuery** to allow users to view a slideshow when users click on the photo and the user can also scroll left and right to see more photos.

Graphical Password – Software Architecture & Design | Link to [GitHub](#)

(October 2022)

- Implemented a Software Requirement Specification document (SRS) and Software Design/Architecture Document (SDD) on graphical password software that can strengthen security using the Agile model.

Others

Kitchen Assistance

Minido Kids Café

Richmond Hill, Ontario
